FARMERS IN SESSION.

RESOLUTIONS WHICH COMMEND RICHMOND PROPLE AND BANKS.

President Mann Page Delivers a Long Ad. dress_They Did Not Pay the Expenses of Third Party Speakers.

The State Farmers' Alliance, which met in the hall of the House of Delegates vesterday, was a small body, and conducted its business without excitement or enthusiasm. In these respects the assemblage was in strong contrast to the meetings of the Alliance in the same place for the two past years, when the hall was crowded with delegates and visitors and the lobbies teaming with the crowd of Alliancemen from all over the State, who were here taking deep interest in the convention.

The Business System. The business system is next passed upon, and reference is made to severance of connection with the Virginia Sun as the official organ of the State Alliance.

He says:

"That paper consented to publish all matters pertaining to the Alliance and its interests—a courtesy denied us by the press generally in Virginia.

"Before dismissing this subject, I deem it pertinent as one of your representatives to the Supreme Council, to state that the accounts sent out by the Associated Press and published in the Manchis papers, purporting to be a report of phis papers, purporting to be a report of the proceedings of the Supreme Council, were designedly intended to prejudice the public against our order, and were devoid of truth. During the time I presided over that body as chairman, pending the election of officers, it was charged that I was acting under instructions given me by Messrs. Taubeneck and Washburn, in order to promote the interest of the People's party. It is sufficient for me to state that I never received a communication from either of those gentlemen, and had never met them until after the adjournment of the Supreme Council, when I was in-troduced to them by Brother Tillman. who was recently appointed by Mr. Cleve-land Register of the Treasury for his efficient services rendered the Democratic party in sending out documents, as he states in his official report, as General Manager and Director of the Lecture Bureau of the National Farmers' Alliance and Industrial Union to the Supreme Council 'to sustain and assist the Demo-

The national summer encampment at Mount Gretna, Pa., is described, and the President closes with this paragraph:

"Having in my previous messages freely discussed questions pertaining to Alliance demands, and their relation to political parties, I deem it only necessary for me to admonish every Allianceman, that if he would have his rights under the law which the Constitution guaran-tees to each citizen, and if he regards the validity of the obligation he assumed o shoulder with every loyal brother in defense of Alliance principles. Evening Session.

The convention met at 8 o'clock. The to mittee on the president's message re-ported, ladorsing and commending the mersage. The report was adopted, and the case of the Chesterfield County Alliarce was referred to the judiciary committee. The reports of the executive com-mittee and committee on business sys-tem came up. The report of the latter committee was vari-ously discussed. By courtesy all ously discussed. By courtesy all that passed is secret. Mr. Julian Ruffin, however, in discussing the methods of fertilizer manufacturers, frequently reminded the convention that what he was saying was a secret for the good of the Alliance in a voice that could be heard through the oran windows half-way across through the open windows half-way across the square.

TO PASS AS CURRENCY.

\$400,000 IN 6 PER CENT. BONDS TO BE ISSUED BY THE CITY.

It is Believed That These Bonds Will Pass in This Community as Legal Tender-Other Work of the Board,

At a regular monthly meeting of the Board of Aldermen, held in the Council chamber last night, the following members answered to their names at roll-call; Messrs. Dickerson (chairman), Allen, Carter, Cary, Davis, Gray, Gunn, Hardwicke, Mitchell, Mountcastle, Reeve, Tanner,

Taylor and Turpin. After the reading of the minutes the Committee on Streets submitted their report recommending the establishment of certain grades and paving, and also recommending the establishment of an alley between Second and Third and Cary and Canal streets, an alley between Mar-shall and Clay streets east of Fifth street, an alley from Twelfth street between Broad and Capitol streets, and also an alley from Cary between Fourth and Fifth streets. The report was concurred in by the Board.

It was agreed that the sum of \$210.60 be appropriated for the purpose of repaying Brown street between the Chesapeake and Ohio railroad and Fifteenth

The Finance Committee then submitted owing recommendation:

That the Committee on Finance be, and are hereby, authorized to issue on such terms, at such times and of such de ominations, not less than five dollars, os sale of the same, four hundred thousand dollars in six per cent, bonds of the city of Richmond. The said bonds shall mature one year from date of issue, and shall express on their face that at or afer their maturity the city will receive them with accrued interest to maturity in liquidation of all taxes, assessments and claims due the city. The net pro-ceeds of said bonds shall be placed to the credit of an account known as "Temporary Loans." Some discussion arose in connection

with this resolution. Mr. Dickerson stated that he was entirely in the dark on this question. He wished to know where this money was going, and what was the extent of the city's indebtedness. and how the money was expended, be-fore he could vote for the resolution.

Tanner stated that the was indebted for work done on the City Hall, and for street improvements, &c., and that the object of issuing these bonds was to relieve the city to some extent of her present embarrassment. Mr. Allen said he thought he could

offer some explanation of the scheme. The city was unable to meet her pay-roll, to pay her employes and contrac tors. She was unable to borrow money or to sell her bonds. The time had come when she would either have to issue these bonds, or go to protest within the next thirty days. The object of the scheme would be to give the city a currency would be to give the city a currency which would pass practically as legal tender in this community. It might be stated as a fact, said Mr. Allen, that these bonds would pass as currency in the city of Richmond. The city through this means would be relieved of her temporary embarrassment, pay off employes and settle bills for the next twelve months. Mr. Allen believed that the scheme would not only give the city months. Mr. Allen believed that the scheme would not only give the city government relief, but would serve as a relief to the citizens as well. The plan had met with approval at the hands of prominent bankers, business men, the Mayor, the City Attorney and others The Finance Committee had first desired to issue the bonds in the denomina-tion of one dollar, but it was found that if the bonds were issued in denominations less than five dollars, the city of Rich-mond would be subject to a tax of ter er cent. on every denomination less than

Reeve asked if there would be any danger of depreciation of these bonds in case of extreme financial depression. Mr. Allen replied that he did not think there would be any danger to the revenues of the city on that score, certainly

not before July 1, 1894.

Mr. Turpin thought the movement Mr. Turpin thought the movement would be an advantage, on the ground that the city could take the bonds at confessed by John E. Taylor, maturity for taxes, instead of cash.

Mr. Dickerson stated that while he could

Mr. Dickerson stated that while he could not afford to vote against the recommendation, he protested against being forced to vote for a measure of so great importance until he had a more thorough knowledge of it. If he voted for the measure then it would be a step in the dark. He wanted time to consider the matter and look into it from several points of view. He therefore moved that the question be tabled until next Monday night, when the Board might take action.

Colonel Tanner stated that the Board Colonel Tanner stated that the Board did not have time to wait. At this time the city could not afford to "stop and
